

FOOT BATH DIP

Twin chain quaternary ammonium compound based sanitizer formulated specifically for foot baths in the food processing industry.

BENEFITS

- Greatly reduces the risk of cross contamination.
- Effective against gram positive and gram negative bacteria.
- Effectively kills bacteria, fungi and mould.

DILUTION RATES

- Dilute at 1: 100 (10 ml to every liter of water)

APPLICATIONS & DIRECTIONS

- Prepare a fresh solution directly in the footbath ensuring that the old solution is suitably disposed of before commencing
- Replace the solution once it has become soiled and in line with the site bio-security policy
- Using a stiff bristled brush remove as much organic matter as possible from the boots remembering to pay particular attention to the sole
- Place boot in the foot dip and scrub using a soft hand brush making sure the entire brush is washed thoroughly with disinfectant solution

AREAS OF USAGE

- Food Processing Facilities
- Dairies
- Disease sensitive areas
- Animal holding areas
